

# PERSONAL DETAILS

**Name:** Devon Lindsey

**Phone:** 415.513.5458

**Email:** devon.lindsey@gmail.com

**Location:** Oakland, CA (Bay Area)

## PROFESSIONAL PROFILE

I'm an excited and ambitious Javascript Developer by day; a robot lover, ReactJs evangelist, and dance off winner by night. In my free time, I teach CSS/HTML/JS to underprivileged youth and own the ReactJS bay area meetup, independently finding sponsors, locations and speakers for a once a month meetup that I MC. I love JS and all things related. I hope to make the web world a better place, one site at a time by teaching what I know, learning what I don't, and finding solutions where there are none. I believe in giving back to the community in any way possible and having fun while doing it.

More importantly, I love to laugh. If we all have a smile on our faces while we code, I promise there will be less technical debt.

# WORK EXPERIENCE

SEPTEMBER

2012 - PRESENT

## TELMATE

SENIOR SOFTWARE ENGINEER

### JOB DESCRIPTION

Getting Out
